WAS FOUND  
DEAD.Well-Known Young Man Found  
Dead Near Clover-  
port.The Jury Returns a Verdict of  
Strangulation and  
Suffocation.

The sad news of the discovery of the remains of Clarence Kasey, better known as "Sambo" about two miles south of this city, was heard Friday morning, Feb. 9th. His body was found face downward in soft mud, by George Webb, colored, while out hunting. These are facts as obtained by a New reporter:

Thursday afternoon, Ork Kasey and Vester Allen were loading steele for the Breckenridge Cannel Coal company. The weather became so inclement that the young men could not continue to work and their first thought was to have a good time. They procured a quart of whiskey from Hannan's distillery and returned to their home at Allen's farm. After drinking of their barrel, they started out on the road for a house then occupied by one Dora Clark.

Upon reaching their destination they were greeted by the presence of Thos. Satterfield. They had not been at the house but a short time, until Charley Beavin arrived on a mule loaded with the guards. He dismounted and went in the house, partially disrobed and took a nap. From the evidence in court, the key was newly exhausted and Vester Allen mounted Beavin's mule and went after more whiskey and Satterfield walked to Hannan's distillery, where he purchased one quart and one half pint for Allen. Allen then rode off and met the following young men in Robinson's corn field: Charley Beavin, Walter Allen, Ork Kasey and Clarence Kasey. They all then enjoyed Kentucky's whiskey by taking several friendly rounds from their bottles. Before it was all gone they were feeling pretty clever and it was decided to go home. It seems that Beavin was under the influence of the infamous moon that the rest and all left with the exception of Vester Allen, who stayed to take care of him. The job developed to be more than he had contracted for and so Allen left Beavin alone with his mule to reach home the best way he could. Beavin was at the point of navigation and lay on the ground to take a sleep. When he awoke he was almost frozen, but by desperate efforts, he mounted his mule and rode to George Webb's and asked permission to remain the night. Afterwards it developed that Vester Allen had returned and was a guest at Dora Clark's house the entire night.

All this time young Kasey was either struggling to go to Clark's house or return home, but he failed in the attempt. His brother, Ork Kasey, and Walter Allen had reached home about seven o'clock, and as he had been out before on similar occasions, his absence was not noted.

On the morning of the finding of the body of Kasey, his parents were summoned. About the time Webb found him there came leisurely strolling along the road Vester Allen and Dora Clark. At this point they parted and the whereabouts of the woman cannot be located. Kasey was a robust, healthy young man and not of the best character. He was about nineteen years of age. It is thought conclusively that barley corn and women of ill-repute were the ruin of this young man.

It is deplorable when young men will gather together and deliberately consume over a half gallon of whiskey, knowing at the time that rain and destruction stare them in the face. Especially when young boys, who have not reached their mature years, are allowed to stand up and drink the fluid as though it were water.

We, the jury, find that Clarence Kasey came to his death about two miles south of Cloverport, in Breckenridge county, Kentucky, early in the night of Feb. 8, 1900, by strangulation and suffocation caused, as we believe from the testimony produced by falling into soft mud and water, face downward, and being unable to rise.

GREAT INTEREST TAKEN  
IN NORMAL LITERATURE.

The Breckenridge Normal Literary held its regular weekly meeting at the Hardinsburg Normal College Friday night. The following officers were present: Roscoe Hendry, president; Raymond Meador, vice president; Miss Sallie Burch, secretary; John Block, treasurer and Arthur Beaul, sheriff. The house was called to order by the president and minutes of the previous meeting were read by their secretary and approved. There were estimated to be 100 persons present and great interest was manifested by all of the members of the society. Many took part in the reading of papers on the latest questions of the day. The principal subject of discussion was whether or not "The United States should retain possession of the Philippines." By Messrs. Raymond Meador, Louis McCoy on the affirmative, and Lee Dittie and Henry Miles on the negative side. It was a spirited argument on both sides and one that enthused the whole house as to who would come out victorious. However, after considerable deliberation it was decided in favor of the affirmative side as having the best argument. Clifford Payne read a most appropriate paper on the "Importance of Literature" which received the approbation of all.

Before the adjournment of the literary organization of a semi-monthly paper was perfected. It will be titled the B. N. C. Hustler. Miss Ella Ahl was unanimously elected editor, who will have the assistance of the members. Prof. Roberts, Mr. J. W. Pate, Miss Kelly Ekridge who composed the faculty of the school should have the entire co-operation of the public to maintain the success of such an important acquisition to the school.

To Be Prepared  
For war is the surest way for this nation to maintain peace. That is the opinion of the wisest statesmen. It is equally true that to be prepared for war is the best way to avoid the peculiar dangers of the season. This is a lesson multitudes are learning, and at this time, when the blood issue to be loaded with germs and to be taken and slung, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels all disease germs, creates a good appetite, gives strength and energy and puts the whole system in a healthy condition. Suffering from pneumonia, fevers, and other dangerous diseases which are liable to attack a weakened system.

OUR GLENDEANE  
CORRESPONDENT.

A Well Merited Compliment From a  
Stephensport Co-Worker.

There has been much in the News, of late from different correspondents to remind us of other but not "happy" days, when our daily toll in the school room was shared with one of our very best county instructors, namely: The Glendean correspondent. How often have we seen his smiling face, as he came to his room in my old home "dried out" mentally and physically, and we would think the ascent to that worldly fame, inasmuch as there was work, work, work, even when the toposet eye was reached. Within the four walls of his study-room never did brain strive more steadily to apply itself "unto knowledge and wisdom." Oftentimes the midnight darkness borrowed a faint taint of light from this student's lamp. Well does he merit the unstinted praise of a host of pupils, patrons and friends.

## Stood Death Off.

E. B. Menday, a lawyer at Henrietta, Tex., once fought a great digger. He says: "My brother was very low with malaria fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued his use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures rheumatism, dyspepsia, nervous disease, kidney troubles, female complaints; gives perfect health. Only 50c at Short & Haynes' drug store.

## TO HER VALENTINE.

In spite of the rainy afternoon, there was a number of ladies present at the Valentine festival given Thursday afternoon at the regular meeting of the Ladies' Reading Club. The concluding chapter of "Prisoners of Hope" were read with much interest.

A Valentine meeting will be held tomorrow afternoon with Mrs. David R. Murray. Each member is requested to bring an original written to her Valentine.

POST YOUR-  
SELVES.One Dollar Will Accomplish  
Wonders if Properly  
Spent.Eight Reasons Why We Refute the State-  
ment Made by "Two Progressive  
Citizens."

Replying to "Two Progressive Citizens" of last week's edition of the News I would beg to advise that the price really paid for franchises is one dollar; that is only to make the contest legal. For every legal transaction there must be a consideration; hence one dollar is usually the price charged.

Second. The purchaser must be the judge as to the bargain. Third. The financial consideration derived from such sales was never expected by any intelligent body of men to improve streets or put more money in circulation, thereby making better times. But the many houses derived from such public works after beginning operations are expected to improve time. Can "Two Progressive Citizens" cite a town or city having water works and electric lights that has not been benefited by same. Still if "Two Progressive Citizens" want the franchise money on streets, I would say that one dollar would put three loads of river gravel on the streets in the fall and the other dollar would haul off three loads of slush in the spring, or would put a little more than six loads of the aforesaid gravel in some alley.

Fourth. The new Council has never attempted the raising of taxes, and I give them credit of knowing enough not to attempt a raise, as per Commercial club. I would advise "Two Progressive Citizens" to consult some posted man on the objects and intentions of a Commercial club, and to re-read the previous article from "Progressive Citizens." Also, I think that the new Council's ability at money raising does not stop at the tax limit.

Fifth. I certainly would object to borrowing money to loan bonds for school house purposes, but as the Council has given its vote to build the school house, I think that when the time comes it will be built.

Sixth. Have never thought of the Council borrowing money; so will drop that question.

Seventh. As to raising the money to do the necessary improvements spoken of, I would advise the "Two Progressive Citizens" to attend the council meeting, or to wait and see.

In my last article I asked for a reply to same. I will now amend my former request and ask only for expressions from anyone having the interest of our little city at heart and these expressions will be in the nature of suggestions and wherein we may all be bettered.

## A LOVING TRIBUTE

To Mrs. Emily H. Board, Who Died  
at Hardinsburg Thursday, Feb-  
ruary 9th.

Last Thursday a noble mother, a devoted daughter passed on to the Holy City. Surrounded by those whose comfort she had ever been, she laid down the cross for the crown. The friends who loved her world and she made her children's lives beautiful by her sweetness and love.

In her hands were flowers, on her grave were flowers that she loved so well in life. In our home are roses and magnolias, loving remembrances from her. She lives forever in our hearts. Her nature had the sweetness of a wild flower blooming in the woods unseen by the world.

A sense of homesickness recall the soul as thoughts of her tender happy childhood spent in her companionship. Her sole happiness was found in making those for her happy. Let us strive to be like her in the thought that every thought taken from us on earth weakens the world's hold upon our hearts, and the best voice is to live in the happy home, not made with hands, eternal in the heaven.

A Young Republican Disapproves of  
His Father's Vote.

In the Republican caucus held at London Monday, Feb. 6th, Senator R. M. Jolly, of Irvington was nominated for President pro tem, and his son, Edwin, for Vice pro tem.

For some time past, the Breckenridge county senator on being in high favor with his party.

This reminds us of an incident which occurred in the organization of the Legislature at Frankfort. Goebel, who was nominated speaker pro tem of the senate, cast a complimentary vote for his opponent, Mr. J. J. Jolly, who had been nominated speaker by the Republicans. Jolly returned the compliment by voting for Goebel, thereby insuring the compact of his little son who wrote his father the following letter:

INVESTING, Ky., Jan. 7.  
Dear Papa: I hope you are well. How do you feel after voting for Goebel? Are you a Democrat yet? Goodbye.

## Tendered a Reception.

Mr. and Mrs. Thomas Beard (see Miss Cora Hendry, of Preston) who were married at the home of the bride Wednesday morning, arrived at the home of his parents, Mr. and Mrs. Taylor Beard, at Hardinsburg Thursday evening. There they were met by friends and relatives. Mrs. Beard, who has for years been recognized as an elegant hostess, tendered the bridal couple and attendants a reception. At nine o'clock a sumptuous repast was heartily served. The table was adorned with lighted candles inserted in handsome brass candlesticks. Those present were: Mrs. Lee Bishop, Mr. and Mrs. Sallie Miller, and Messrs. Louis Kinkelhoe, Roscoe Hendry and brother, and E. C. ## A PRACTICAL FARM WOMAN.

(By G. W. McElroy, Lebanon, Ky.)

I know the readers of this column will be sorry to learn that the writer of it is very sick. I know too that I cannot take her place, nor would I attempt it, save that I want to tell the good ladies who read this paper a little incident, and to answer two people who seem to think Mrs. McElroy not capable of filling her position.

The first one said, "Why, there are lots of women in Kentucky who could write or speak just as well as she." Granted, but Mr. Moore could not appreciate them all, and moreover, he, not she, was the judge. And, too, this same good critic, I saw with my own eyes, cry like her heart would break at the reading of the first paper. So much for No. 1.

## No. 2.

No. 2 was a lady living in some of the counties in which institutes were held. She said, and very pleasantly, that Mrs. McElroy's feet and hands were too small for her to have done much work. It is the regret of my life that circumstance have forced me to allow her to work until her hands and feet are larger by a size or two than when I married her eighteen years ago.

Now for the incident. We had been married less than two weeks, when I told her I wished to put in about 40 acres of rye, to help restore some land I had rented out for several years. Hands were scarce and money not very plentiful, and I told her to go in the buggy and try and find me a hand to drive a team in an acre harrow. "Well," said she, "if that's all you want, why can't I do it?" "Because the team is wild, at least one horse is, and you couldn't stand it, and its right on the side of the pike where every one who passes will see you, and I am ashamed for my bride to do such menial work." "Now that's all stuff," said she.

Well, you know about a woman having her own way. She drove the team and broke the wild horse, and harrowed in the 40 acres of rye. I sowed by hand and never enjoyed sowing any crop as much in my life, and she says the same thing; and from that good day to this, there has never been a place she could not fill.

## Now more than that, and I am done.

I was, perhaps, boasting, of the above incident a few years after, when an old Irishman who knew me well said, "And sure and did you ever pay for it?" "No," said I, "she has never been paid." "Well, will you pay her now?" "That I will, any thing you say, Pat." "Well, then come along. He took me across the street to Col. Carlin's store and ordered the finest silk dress in his life, and she says the same thing; and from that good day to this, there has never been a place she could not fill.

## There is no better medicine for the

babies than Chamberlain's Cough Remedy. It is pleasant to take and promotes good health. It is a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure, so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. In cases of whooping cough it lightens the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by A. R. Fisher, Cloverport, R. A. Shellman, Stephensport.

BRILLIANT  
AFFAIR.

The Monday Night Musicate at The  
Methodist Church a Complete  
Success.

## FOREIGN AND LOCAL TALENT.

Notwithstanding the unfavorable  
weather Monday night quite a crowd  
gathered at the Methodist church to  
enjoy the musical treat that had been  
promised by an able committee of the  
Methodist Church, Temperance Union.

The program embraced the best local  
talent and two numbers by Master Carl  
Lindstrom, the choir, cornetist, of Louis-  
ville, and the celebrated clarinetist,  
Mr. F. S. Craig, of Louisville.

Master Carl Lindstrom is a youthful  
pianist. He was related to Henderson,  
where he early manifested his great  
musical talent. His engagement with  
Gilmore's band was perhaps his greatest  
honor and he wears a handsome badge  
presented by that noted band leader.

His encores, Annie Lantz and Dixie  
were greatly appreciated as well as his  
numbers.

Mr. Craig, accompanied by Mrs. D. E.  
Bee, drew the audience. He is an  
artist in his line and his playing was  
pleasing to everyone.

Among the vocalists of the evening  
was Miss Addie Louise Babbage, who  
made her first appearance in public. She  
sang a sweet soprano voice, which will  
be an addition to the musical circle of the  
town.

The Misses May opened the program  
with a brilliant duet which was followed  
later in the evening by a popular solo by  
Miss Eva May.

Miss Lala Owen and Marion Bawmer  
were down for instrumental solos, which  
were enjoyed by all, and the trio by  
Misses Owen, Bawmer and Mrs. D. E.  
Bee was highly applauded.

Mr. D. E. Bee, who has been a faithful  
worker in the temperance cause and  
who is a genuine music lover, sang a  
bass solo, accompanied by his wife. Mr.  
and Mrs. Bee are both equipped with  
musical ability and have infused much  
enthusiasm into the musical fraternity.

Miss Warfield closed the first part  
of the program with "Amenities" which she  
sang in her usual charming style.

"The Gypsy Song," a selection  
from the Fortune-teller, was sung by Mr.  
C. W. Moorman, Jr. This was a happy  
selection and well suited to the voice  
of this always pleasing singer.

One of the most enjoyable features of  
the evening was the appearance of Miss  
Jessie Schulz. Her recitations are always  
good and her character pieces are excel-  
lent. Her encore, "Naughty Nell" was  
valued of all and spirit.

Prof. W. B. Maple received quite an  
ovation. His song was applauded heartily  
and he was called back again and  
again. His encores, a lively ragtime song,  
was one of the hits of the evening.

The re-appearance of Mrs. L. T. Reid  
was a great pleasure to the audience.  
Her voice grows sweeter and clearer as  
time goes on and her selection "By the  
Fountain" was thoroughly enjoyed.

The accompanists, Misses L. E. White  
and Lala Owen and Mrs. D. E. Bee,  
added much to the pleasure of an enjoy-  
able evening by their services.

Miss Siddal had a trying experience in order that the artist might get the proper set of the garments in water and might be able to depict the effects, she had to lie in a large bath tub, and while the water was on even temperature by lamps placed beneath. One day, just as the picture was nearly finished, the lamps went out unnoticed by the artist, who was so intensely absorbed in his work that he thought of nothing else, and the water trial of his was nearly burned. The herself never complained of this, but the result was that she contracted a severe cold, and her father, an old physician, threatened him with an action of \$50 damages for his carelessness. Millais said the doctor's bill, and Miss Siddal's quick recovery, was the reason for her cold bath.—Life of Sir John Millais.

**Food Elements in Fruits**  
sugar, starch, gum, dextrin, pectine, charifable cellulose, organic acids and other extractive matters are, together with water, the chief elements in pulp fruits. The sugar is assimilable and is a food. Fruits which contain most of it, as bananas, dates and figs, are very rich in food. Fruits which contain a few hydrocarbonated foods, such as nutmegs, are also nourishing, but in a lesser degree, as they are not so digestible. With these and other rare exceptions, however, fruits, in the opinion of M. Baland, are little nutritive and cannot be considered as foods. Their juices, which please us by their sweet or acidity, are condiments rather than foods.

## BRECKENRIDGE NEWS.

Jas. D. &amp; V. G. Bahagge, Editors and Proprietors

CLASSES OF TEACHERS over five hundred for the rate of 10 cents per day.  
 OUTRIGERS charged for at the rate of 10 cents per day.  
 MONEY IN ADVANCE.

WEDNESDAY FEBRUARY 14, 1900.

If you don't know, ask.

Kirk keeps right along improving and spreading westward.

The best butter in America is made right here in Breckenridge county. It's a broad assertion, but 'tis true.

As income tax law, after a two year's trial in South Carolina, has proved a failure and has been repealed.

A "Boys' Reading Room" in this town is an upward step along the lines of advanced civilization. The women as usual are the prime movers.

The passing of Henry Watterson from a once honored leader of a grand and noble party into the slums of partisan politics, is a sad thing to contemplate.

Miss G. A. Fouts, of Irvington, the successful breeder of fancy poultry of the highest type, has an ad in this paper relative to her work. Don't overlook it.

RECKIN says "Would you paint a great picture, be a good man. Would you give a perfect statue, be a pure man. Would you enact a wise law, be a just man."

PUBLIC sentiment in Breckenridge county is dead against the saloon. This fact was clearly demonstrated in the temperance meeting held at Hardinsburg last Monday.

Five thousand saw logs came down Rough river on the freight of last week, and there are yet fifteen thousand in the woods to come. Col. Green says this has been the greatest year for logs in the history of the Falls.

The late unpleasantness at Frankfort has again given rise to the talk of moving the capital from Frankfort to Louisville. That "would never do." The members of the Assembly would be run down and run over in Louisville.

In the politicians at Frankfort had a little more music in their ears tempered with a genuine Christian spirit, they would dwell in peace and harmony, and be a good example to the rising generation and be of some service to their state and country.

REV. T. V. JOHNER preached a strong sermon on Mission Sunday morning. He did not take up the money side of the question, but dwelt on the spirit of missions—without which neither church nor individual can grow stronger spiritually.

On account of the very material rise in the price of paper, many journals are increasing their subscription price. The News is a one price paper. Pay your dollar for a year in advance and get the Farm Journal for four years free of charge.

The contemplated spring trip of Adeline Dwyer has caused some suspicious politicians to scratch their heads dubiously. This distinguished scholar will visit cities from Georgia to Minnesota and it is a probability that he may be for a few days within our own state as the guest of the city of Louisville.

In an editorial in the Baptist Argus of last week the press is referred to as a lynx-eyed, half-sighted, combined detective, censor and undertaker. The press certainly is a much maligned and abused institution. In Christian virtue of long suffering however should entitle it to some hope of reward "when the mist has rolled away."

GOSPEL ROBERTS says: "If you wish to improve the political tone you have got to strive for the moral betterment of the people." And this is true. The sooner we in Kentucky get politics and politicians above the saloon and the damning influence, the sooner will we have peace and a prosperous state government.

These politicians at Frankfort seem to have little concern about the cost of all this rumpus to the taxpayers of the state. Only a few days ago there were \$12,000 paid to the soldiers and this is hardly a beginning. When we take account that not only the soldiers are to be paid but that the time of all the state officials has been practically lost for the past month, the expense for all of this will be enormous when a final settlement is reached.

We will print next week a letter from young Mr. McGehee who is working for Uncle Sam in the Philippines. He likes his job and finds no fault with his employer except that he does not keep him actively engaged. Mr. McGehee claims Kentucky for his home and it bodes him to sit around waiting for orders to fire; he is long for a place where he can draw and fire at his own discretion.

The Elizabethtown News announces that in the future "outlets shall tempt it to discriminate between aspirants for office until nominations have been made by the parties. Of course then it will support the Democratic nominees. This worthy organ further states that it puts the party above the man in every election. This is the plan that has been followed by the greater number of newspapers during the recent sensational campaign, the disastrous results of which are now before the people. The Breckenridge News unlike the Elizabethtown News is for the man in preference to the party. When the man in office is right and the party is wrong, then and not until then will the parties be right. Let our representatives be from the front ranks of our mental and moral giants and there will be no complaint as to party from us. We can then support a good Democrat against a good Republican.

There is nothing like Christianity supported by brawn and muscle. By all means furnish the young men of Cloverport with not only the means of developing their minds and enjoying the pleasures of intellectual culture, but also of making the cause of muscular Christianity. We hope the ladies who have in hand the matter of providing a room for the entertainment, and moral and intellectual improvement of our young men, may also be successful in giving them a good start toward the formation of a gymnasium. More reliance on nature's weapons and less on knives and pistols would certainly improve the moral atmosphere, not only of Breckenridge county, but of the whole State.

The world is growing better every day. There are now in existence more opportunities for doing good than ever before and the Christian people are falling into line. It is stated that since this time last year there have been given to the cause of missions and education by American women sixteen million dollars. The good that has thus been accomplished in the shortening lives for the right cannot be estimated.

**DUSK.**  
 Daughter of day and night she stands,  
 Queen of the story shadows;  
 A gleam of gold in her hair she wears  
 Dreams of the starry midnight skies.  
 The above verse is from the pen of one of Kentucky's most talented young writers—Ingram Brock of Henderson. He is a writer of poetry and some of his poetic fancies are gems in the crown of Kentucky's literature. May his dreams and fancies and reveries continue to enrich our storehouse of golden thoughts.

**THE SITUATION AT FRANKFORT**  
 During the last few days Frankfort has assumed a quiet aspect and visions of peace by arbitration appear to be the troubled dreams of our Kentucky warriors. The town is still full of reporters who daily dig for news and some of the state with dainty tid-bits from our domestic wrangling.

Governor Taylor, still protected by four companies of soldiers, has refused to sign the declaration of peace as framed by some of his worthy advisers and is holding each day a session of the Legislature at Frankfort. All soldiers have been dismissed except four companies and right of entrance to the Capitol is given to all.

The Democrats are meeting daily in the courthouse at Louisville, where on Monday they passed a bill authorizing the expenditure of \$100,000 for the defeat of the measure of Wm. Goebel. A conference of Democratic leaders was held yesterday to prepare a petition to be filed in Judge Cantrell's court at Georgetown to secure for J. C. W. Beckham all the privileges of Governor.

The inauguration of the State Constitutional Board of Kentucky brought by the Republican incumbents of the minor state offices before Judge Taft of the United States Circuit Court of Appeals will be decided today. This is a question of the jurisdiction of the Federal Court in the case.

Mr. Burton's mother has been nursing him during his illness at the Harris hotel. Mr. Burton wants to be home, he came home and she has been with him all the time. She is now Mrs. Smith and lives near Balltown. Mr. Burton visits her regularly when he is well.

Breckenridge county sent only a few patriots to attend the funeral of Goebel. Hardinsburg had the honor of furnishing a few of these, and Glendene came in next. There are some warm Democrats in the 16 to 12 to 100 Glendene. Hardinsburg is not so enthusiastic as she might be. The party will first need reorganization, and some good working material in the lead.

If it was only health, we might let it cling.  
 But it is a cough. One cold no sooner passes off before another comes. But it is the same old cough all the time.  
 And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

We commend them to the good people of their future home.

All hail to the Sheldon Christian Daily. We are sending our 25 cents today for the week's issue, the price of which, by the way, is cheap, and in line with this great man's ideas, as set forth in his wonderful book, which is rather to the present undertaking. Considering the heavy expense necessary to handle such enormous business, such an enormous number of new subscribers for so short a period, cost of separate wrapping and mailing, to say nothing of the additional clerical force. The price is reasonable.

The people here were all sorry to hear of Goebel's assassination, but a great many content that his being the author of the Goebel law was indirectly the cause of his own downfall. Democrats and Republicans in the rural districts should be careful not to fall out over what has gone on at Frankfort. Let us remember that each and every man has a perfect right to an opinion, but he should be careful not to express it in such a way as to hurt his neighbor's feelings. Let every man show the same respect to other men's feelings as he wishes shown his and all will come out right in the end.
